Board of IISRE Initiative
The International Institute for
Sustainable Regional Economies Inc.

To Whom It May Concern:

As the Mayor of the City of Kelowna I am pleased to provide my support in principal to the interdisciplinary the International Institute for Sustainable Regional Economies (IISRE) Initiative and the proposed joint Canadian Swedish comparable and allied research.

The IISRE initiative originated in the Okanagan and involves Canadian and Swedish faculty from UBCO, UNBC and MSU of Sweden.

The City of Kelowna recognizes regions are becoming the critical political unit for analysis of socio-economic and ecological issues.

Involving a unique partnership between university, private and government sectors, this IISRE initiative will help to provide socially-relevant research that may assist the Okanagan region by improving resource development and allocation. This ultimately will help assist in determining sustainable regional prosperity, health and welfare.

Sincerely,

A handwritten signature in cursive script that reads "Sharon Shepherd".

Sharon Shepherd
MAYOR
